

Reed-Joseph INTERNATIONAL COMPANY

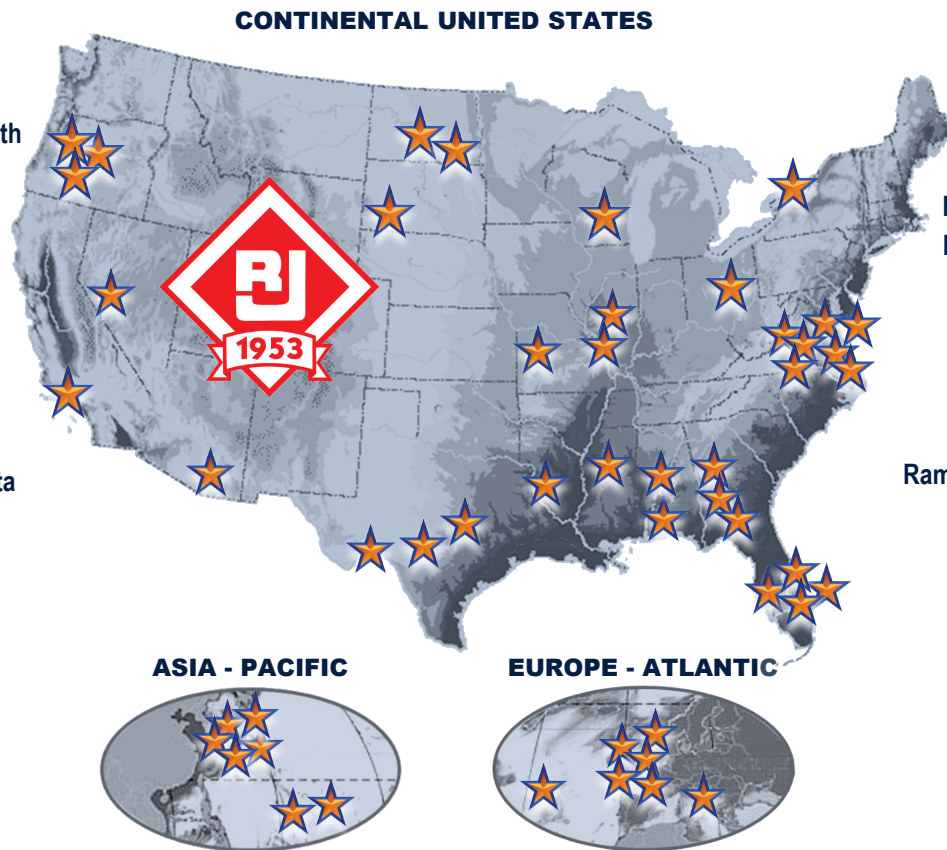

AMERICAN OWNED & OPERATED SINCE 1953

Reed-Joseph International Company's digitally controlled Scare Wars® System is designed to assist you to effectively combat bird and wildlife threats. We have integrated the best hardware and software technologies to give you the most efficient system available, and customers have been especially pleased with results from our Scare Away® Model R4 LP Gas Cannon which is electronic versus mechanical. Scare Wars® operates at maximum readiness with minimum maintenance and is successfully reducing the risks and threats at airfields just like yours.

GSA Advantage!

Each airfield has unique challenges, and it has been proven that the Reed-Joseph Scare Wars® System provides a solid foundation to implement a successful bird aircraft strike hazard (BASH) program. When installed and combined with the appropriate environmental activities, along with the proper mix of harassment techniques, including pyrotechnics, our Scare Wars® System provides the most cost-effective return on investment for any bird and wildlife control product on the market. It reduces manpower requirements and potential runway incursions, all while operating at optimum efficiency. *See next page for System Description.*

Reed-Joseph is an American-owned small business and we have been providing sound and motion technologies to successfully disperse bird and wildlife threats for **Over 70 years**. Our staff are recognized experts in bird and wildlife control and have extensive experience working with airfield operators and agencies of all sizes all over the world.

PROVIDING SUCCESSFUL BIRD & WILDLIFE CONTROL SINCE 1953

SCARE WARS® SYSTEM DESCRIPTION

SCARE WARS® REMOTE BIRD DETERRENT UNIT

Portable, secure, and solar powered.

Weather-proof and self-contained, 16-gauge galvanized steel.

The Scare Wars® System has two major on-the-airfield components:

- **SCARE AWAY® MODEL R4 LP GAS CANNON**
- **BIRD DISTRESS CRY GENERATOR**

SCARE AWAY® MODEL R4 LP GAS CANNON

The loudest cannon available, with 130 dB blasts.

Provides multiple shots, with irregular intervals in between.

The Rotomat is an electric, belt-driven platform that rotates 360°.

'SmartCannon' turns cannons off, even if radio command is missed.

ALL ELECTRONIC, NO MOVING PARTS, BETTER PERFORMANCE, LESS MAINTENANCE

BIRD DISTRESS CRY GENERATOR

Distress calls of 40 species of regional and predatory birds.

Programmable control box with volume settings and time intervals.

Weather resistant speakers offer customized sound output up to 90 dB.

Dual-speakers allow for multiple configurations, volumes and coverage.

CAN BE CONFIGURED AND PROGRAMMED FOR A SPECIFIC AIRFIELD'S BIRD THREATS

MASTER WORKSTATION

Master Workstation transmits commands to cannons on the airfield.

High speed, digital data transmission; narrow-band channel spacing.

Triple redundancy, assuring more reliable radio transmission.

Fuel gauge estimates remaining LP gas in each Unit.

CUSTOMIZED AIRFIELD DIAGRAM SHOWS EACH UNIT'S LOCATION ON THE AIRFIELD

HANDHELD TRANSMITTER

Can be activated on the airfield, with excellent RF specifications.

Secure customer-designated frequency; narrow band channel spacing.

Transmitter is rechargeable, rugged, reliable and easy to use.

Synthesized programmable; selectable power output.

CONTROLS SINGLE UNITS, GROUPS OF UNITS OR ALL UNITS, WITHOUT RESTRICTION

The Reed-Joseph Scare Wars® System is tested, proven, and fielded at airports and bases around the world. We are the nation's oldest and largest distributor of bird and wildlife control devices, offering a wide range of products and services to assist you to plan, implement, or augment your BASH program. Remember that the Reed-Joseph International Company Scare Wars® System is there for you **24/7** and *Reed-Joseph is there for you when you need us . . .*

REED-JOSEPH OFFERS THE BEST IN BIRD & WILDLIFE CONTROL PRODUCTS
